_____

Summary

Programming knowledge in developing professional Web applications from requirement gathering, designing, and technologies like HTML5, CSS, JavaScript, Ajax, JQuery, DOM, JSON, Node.js, ES5, ES6, MySQL, MongoDB, and React.js.

Education

- Northwestern University, Chicago, IL, Graduated in April, 2021 Bootcamp Certification,(A+ grade).
- Bachelor of Education (BEd) in Mathematics, from University of Addis Ababa, Ethiopia(2006/2007).

TECHNICAL SKILLS

- Front-End:- HTML5/CSS,Handlebars, Bootstrap, JavaScript, jQuery, API, JSON, and Ajax calls.
- Version Control:- git, gitlab, github and heroku.
- Back-End:- Node Express, Servers, Sequel database, MySQL, and Nosql MongoDB.
- Performance:- Object Oriented design, Testing, Error Handling, Local Storage, Progressive Web Apps(PWA's), portfolios and algorithms.

_____

Projects

1. LYRIC-FINDER

Deployed URL:- https://pete-scale.github.io/lyric-finder/
Github:- https://github.com/Pete-Scale/lyric-finder (edited)

- Collaborated through a key role in group work in templating html, styling css and ajax call response appending to the page.
- Lyric-finder is a front-end app that allows the users to search Lyric-listener by Artist name and song title. The listener can scan or click QR code taken to a youtube video.
- Collaborated through a key role in group work in templating html, styling css and ajax call response appending to the page.

2. Jeopardy_trivia_game

Deployed URL:- https://shielded-fjord-19309.herokuapp.com/
Github:- https://github.com/Geoff7709/jeopardy_trivia_game

- An Alex Trebek Tribute application where you can reminisce and play a version of Jeopardy
- Met good quality coding standards (indentation, scoping, naming).
- Utilizes one API that provides over 156,000 trivia questions, clues, categories, answers and more.

3. Worldly-meals

Deployed URL:- https://aqueous-ocean-13819.herokuapp.com/
Github:- https://github.com/glynismullankwok/worldly-meals

- This project is an e-commerce app called International Ingredients to Wordly Meals. "Worldly Meals" for short,it's a meal prep company, where customers can shop and pick up ingredients to cook international meals.
- The meal kits come with all the ingredients needed to prepare the desired meal. What sets our company apart? We offer a great variety of international recipe choices that all come with nutritional data that the customer can use to fit into their own diets and lifestyles.

4. PASSWORD-GENERATOR

Deployed URL:- https://destish21.github.io/password_generator/
Github:- https://github.com/destish21/password_generator

- Password-generator is a front end app that allows users to create random passwords including lower case, upper case, numbers and symbols .
- Users can generate their passwords. Moreover, users can check the password-generator of the app on the community page.
- Tools used: HTML, css, javascript, chartjs, database in array method and more.

5. Api04-codequiz

Deployed URL:- *https://destish21.github.io/api04-codequiz/*
Github:- https://github.com/destish21/api04-codequiz

- Quiz Code app is a javascript based application developed for taking timed quizzes with multiple-choice questions.
- Users can escape or save grade scores, and clear and retake the quiz.
- Tools used: html, css and vanilla javascript and local storage.

6. Employee-team-profile-generator

DeployURL:-https://destish21.github.io/employee-team-profile-generator/Develop/output/team.html
Github:- https://github.com/destish21/employee-team-profile-generator

- This application is developed to help project developers to save time in generating team-html webpage profiles. That takes in information about employees and generates an HTML webpage that displays summaries for each person. clearly and briefly.
- Employee-team-profile-generator using classes and constructors that an employee profile summary. It includes node packages, javascript, team HTML, and CSS.

_____

Work Experience

Dej.Balicha Aba Nefso Senior Secondary School, Ethiopia (09/2007-06/2009)
- Taught mathematics and physics to senior secondary school students.
